

Chapter 16

Management of Natural Resources

1. The three R's to save the environment are:

- A) Reduce, Recycle, Reuse
- B) Reduce, Rebuild, Reuse
- C) Reuse, Recover, Recycle
- D) Reduce, Recreate, Recycle

Answer: A) Reduce, Recycle, Reuse

2. Which of the following is an example of reuse?

- A) Making compost from kitchen waste
- B) Using old newspapers to make envelopes
- C) Melting plastic to make new items
- D) Using wastewater for irrigation

Answer: B) Using old newspapers to make envelopes

3. Which one of the following is not a forest product?

- A) Timber
- B) Honey
- C) Petroleum
- D) Lac

Answer: C) Petroleum

4. The main cause of deforestation is:

- A) Urbanization
- B) Afforestation
- C) Soil conservation
- D) Water harvesting

Answer: A) Urbanization

5. Chipko Movement was associated with:

- A) Protection of rivers
- B) Conservation of forests
- C) Protection of wildlife
- D) Water conservation

Answer: B) Conservation of forests

6. Who started the Chipko Movement?

- A) Medha Patkar
- B) Sunderlal Bahuguna
- C) Anna Hazare
- D) Baba Amte

Answer: B) Sunderlal Bahuguna

7. The Ganga Action Plan was launched in:

- A) 1983
- B) 1985
- C) 1990
- D) 2000

Answer: B) 1985

8. The main objective of Ganga Action Plan was to:

- A) Conserve aquatic life
- B) Reduce pollution in river Ganga
- C) Promote tourism
- D) Build dams

Answer: B) Reduce pollution in river Ganga

9. Which of the following is a non-renewable resource?

- A) Forest
- B) Water
- C) Coal
- D) Wind

Answer: C) Coal

10. Which of the following practices can help in water conservation?

- A) Water harvesting
- B) Deforestation
- C) Overgrazing
- D) Over-irrigation

Answer: A) Water harvesting

11. Which of the following is not a natural resource?

- A) Air
- B) Plastic
- C) Water

D) Forest

Answer: B) Plastic

12. Which of the following is the best way to manage waste water?

A) Drain into rivers

B) Filter and reuse

C) Store in ponds

D) Mix with clean water

Answer: B) Filter and reuse

13. The main aim of sustainable development is to:

A) Use all resources now

B) Conserve resources for future generations

C) Ban industrialisation

D) Increase population

Answer: B) Conserve resources for future generations

14. The construction of large dams leads to:

A) Increase in deforestation

B) Increase in biodiversity

C) Soil conservation

D) None of these

Answer: A) Increase in deforestation

15. The reservoir formed by Tehri Dam is on which river?

A) Ganga

B) Yamuna

C) Bhagirathi

D) Godavari

Answer: C) Bhagirathi

16. Which of the following is the main reason for the depletion of groundwater?

A) Deforestation

B) Overuse and wastage

C) Rainwater harvesting

D) Forest plantation

Answer: B) Overuse and wastage

17. Water harvesting is important because it:

- A) Increases runoff water**
- B) Reduces soil erosion**
- C) Recharges groundwater**
- D) Both B and C**

Answer: D) Both B and C

18. Which of the following is a renewable source of energy?

- A) Coal**
- B) Petroleum**
- C) Wind energy**
- D) Natural gas**

Answer: C) Wind energy

19. The main cause of water pollution in rivers is:

- A) Industrial waste**
- B) Rainfall**
- C) Evaporation**
- D) Groundwater recharge**

Answer: A) Industrial waste

20. Which one of the following is not an advantage of dams?

- A) Prevention of floods**
- B) Generation of electricity**
- C) Destruction of forests**
- D) Irrigation**

Answer: C) Destruction of forests

21. Which of the following is an example of sustainable practice?

- A) Excessive use of fertilizers**
- B) Using solar energy**
- C) Wasting electricity**
- D) Burning fossil fuels**

Answer: B) Using solar energy

22. Which of the following is used for rainwater harvesting in Rajasthan?

- A) Bawris and tanks**
- B) Step wells**
- C) Check dams**

D) All of these

Answer: D) All of these

23. Which gas is responsible for acid rain?

A) CO₂

B) SO₂ and NO₂

C) O₃

D) NH₃

Answer: B) SO₂ and NO₂

24. What is meant by watershed management?

A) Building more dams

B) Managing land and water resources together

C) Draining water into rivers

D) Stopping water harvesting

Answer: B) Managing land and water resources together

25. Which of the following is an advantage of water harvesting?

A) Prevents soil erosion

B) Recharges groundwater

C) Reduces flood risk

D) All of these

Answer: D) All of these

26. Which of the following practices is not environment-friendly?

A) Using cloth bags

B) Burning leaves and plastic

C) Segregating waste

D) Composting kitchen waste

Answer: B) Burning leaves and plastic

27. Which of the following helps in maintaining ecological balance?

A) Deforestation

B) Afforestation

C) Industrialisation

D) Mining

Answer: B) Afforestation

28. Which of the following is a fossil fuel?

- A) Biogas**
- B) Wood**
- C) Petroleum**
- D) Charcoal**

Answer: C) Petroleum

29. The term “reuse” means:

- A) Use and throw**
- B) Use only once**
- C) Use the same thing again for another purpose**
- D) Burn to destroy**

Answer: C) Use the same thing again for another purpose

30. Which of the following can help to conserve electricity at home?

- A) Keeping lights on when not needed**
- B) Using LED bulbs**
- C) Using old, inefficient appliances**
- D) Running fans unnecessarily**

Answer: B) Using LED bulbs
